This unit has 5 learning outcomes.

LEARNING OUTCOMES		ASSE	ESSMENT CRITERIA
The learner will:		The l	earner can:
1.	Know about the structure and function of animal cells.	1.1	Describe the structure of a typical animal cell.
		1.2	Describe the function of a typical animal cell.
2.	Know about the structure and function of plant cells.	2.1	Describe the structure of a typical plant cell.
		2.2	Describe the function of a typical plant cell.
3.	Know about the structure and function of bacterial cells.	3.1	Describe the structure of a typical bacterial cell.
		3.2	Describe the function of a typical bacterial cell.
4.	Know how substances and water move into and out of cells.	4.1	Describe the principles of: a) diffusion b) osmosis c) active transport.
5.	Know about enzyme action.	5.1	Outline the principles of enzyme action.
