

# Access to HE Diploma Specification & Assessment Framework

## **Diploma Title:**

### **Humanities and Social Sciences**

Learning Aim:	40015725
Approved:	16 May 2024
Validation dates:	01 August 2024 - 31 July 2029
Date of next review:	September 2028

#### Purpose and aim of the Access to HE Diploma

The Access to HE Diploma is intended to prepare people without traditional entry qualifications for degree level study at university. It may also be used by people wishing to make a career change or who have been out of formal education for a significant time to gain the knowledge, skills and confidence required for direct progression to employment or further study. The Access to HE Diploma is regulated by QAA and widely recognised as a progression route by universities across the UK.

#### **Target Group**

The Access Diploma is open to all learners but is designed to be accessible for individuals who, because of their socio-economic or personal circumstances, may not have been able to consider progression to degree level study. The Access Diploma therefore provides a second chance for individuals who, for whatever reason, were not able to take full advantage of their formal secondary education.

#### About the qualification

The Diploma Specification for Humanities and Social Sciences enables centres to choose from a variety of units across both subject areas (with a minimum requirement of 15 credits from each discipline).

The progression routes<sup>1</sup> from this Diploma could include, but are not limited to, degrees in psychology, criminology, sociology, criminal justice, history, English language and literature, social work, teaching, law, anthropology, politics, public services, business studies, international relations, social policy, film studies, media, linguistics, culture, sports psychology, journalism, philosophy, theology, creative writing, art history, counselling, etc.

## **Specification Rules**

All LASER Diplomas are made up of 45 graded credits (sections A, B, C below) and 15 ungraded credits (section D). The policy for the LASER Access to HE Diploma Specification & Assessment Framework is available at <a href="Validated Diploma Specifications">Validated Diploma Specifications</a> or by contacting the Access Office.

Section	Minimum Credits	Graded/ Ungraded	Modules	Notes
A	30	Graded	Humanities: Art, cultural studies, creative writing, education, English, history, law, media, philosophy  Social Sciences: Anthropology, criminology, politics, psychology, sociology and social work	Choices to be made from 2 or more subject areas taking a minimum of 15 credits from each discipline
В	9 or 15	Graded	Additional units from group A or selected business, counselling, maths or professional studies	Number of credits dependent on choice of graded or ungraded IAS
С	6	Graded or Ungraded	IAS Humanities and Social Sciences	MANDATORY UNIT
D	9 or 15	Ungraded	Study Skills units or selected ungraded options from sections A and/or B	Study Skills units can be at level 2 or 3  Number of credits dependent on choice of graded or ungraded IAS

1

<sup>&</sup>lt;sup>1</sup> Suggested progression routes have been taken from provider feedback and HE consultation, they may be subject to change and further review and do not indicate any guarantee of progression in these fields. LASER would always recommend students ensure the diploma they wish to enrol on is appropriate for their future progression.

## **Unit Choices: SUBJECT GROUP A**

30 graded credits to be selected from the modules listed below, these units are chosen as specific to the subject of the named Diploma and are all at level 3.

Please note: QAA regulations state - the maximum number of credits that can be made up from 6 or 9-credit units is 30 credits. Graded and ungraded 6 and 9-credit units will count towards the maximum. As the Independent Academic Study is a mandatory graded or ungraded unit of 6 credits (Unit Group C), this means that no more than four other 6-credit units (24 credits) can be registered across Unit Groups A, B and D.

Humanities (minimum 15 credits)		
Art

## **Ungraded Academic Subject Content** (all at level 3)

Units cannot be included within a centre's Rules of Combination as both graded and ungraded, but centres can choose to offer some academic subject units as ungraded versions. These must be identified as part of the course approval and will apply to all cohorts on this diploma title within a centre. If a centre wishes to include other units in Groups A or B as ungraded content, this will need to be requested for consideration by the AVA, giving valid reasons for inclusion, as part of course approval.

## **Diploma Assessment Framework**

All LASER validated Access to HE programmes must include a **Diploma Assessment Plan** as a part of their validation/revalidation process and the plans will be required to be updated and available for review as part of the yearly External Quality Assurance cycle. In identifying assessment models, practitioners should also give due consideration to the requirements of the LASER <u>Guidance on the Use of Al</u> to ensure the veracity of assessments as measures of student achievement.

The policy for the LASER Access to HE Diploma Specification & Assessment Framework is available via <u>Validated Diploma Specifications</u> or by contacting the Access Office.

#### **Required Assessment Models:**

Assessment Model <sup>2</sup>	Suggested Weighted Frequency of Use	Comments
Examination	High / <mark>Moderate</mark> / Low	Required by LASER Examination Policy and identified as a commonly used assessment model within HE.
		The LASER Examination Policy requires all LASER validated Diploma Titles to contain at least <a href="three">three</a> opportunities for students to experience appropriate forms of 'summative' examination which contribute to the final assessment and grade of the unit. Unless there is a compelling reason, no diploma should contain more than six examinations. The full policy can be viewed here: <a href="Access Policies">Access Policies</a> .
Essay (Include as necessary)	High / Moderate / Low	Together with Examinations this constitutes one of the most predominant assessment methodologies for HE.
Presentation	High / Moderate / <mark>Low</mark>	Very high frequency of use in HE but not always as a summative assessment tool. Students should have moderate but not substantive experience of this form of assessment.

14

<sup>&</sup>lt;sup>2</sup> Definitions of the meanings of given **Assessment Models** are contained within Annex One of the LASER Access to HE Diploma Specification & Assessment Framework.

### **Recommended Assessment Models:**

Recommended Assessment Model	Possible Weighting	Comments
Project	Strongly Recommended / Recommended / Suggested	May be used as a means of assessing independent learning in a given subject area.
Extended Essay	Strongly Recommended / Recommended / Suggested	Although not the norm this assessment tool is used with moderate frequency in HE and therefore students should have some experience of it.
Case Study	Strongly Recommended / Recommended / Suggested	May be appropriate to units where there is a requirement for application of knowledge E.g. Law or Psychology.
Report	Strongly Recommended / Recommended / Suggested	A less frequently used model of assessment but required as many progression reports will employ this model and students should have some experience of it.  This could be evidenced by the submission of the graded IAS or could be evidenced via a graded alternative unit of assessment.
Literary Review	Strongly Recommended / Recommended / Suggested	A model used within the study of English Literature, English Language and Media which require the student to formulate a written critique of the given text which may or may not draw on alternative academic sources depending on the nature of the task. The model may be broadened within Media to include 'Textual Analysis' of film or other media.
Workbook	Strongly Recommended / Recommended / Suggested	May be used in relation to any unit.
Production of an artefact	Strongly Recommended / Recommended / Suggested	This could be used in several ways within this title including producing art work, videos, etc.
Produce a portfolio of original creative work	Strongly Recommended / Recommended / Suggested	This is suggested for students undertaking creative writing and art modules – this is most effective if accompanied by a critical commentary.
