Purpose and aim of the Access to HE Diploma

The Access to HE Diploma is intended to prepare people without traditional entry qualifications for degree level study at university. It may also be used by people wishing to make a career change or who have been out of formal education for a significant time to gain the knowledge, skills and confidence required for direct progression to employment or further study. The Access to HE Diploma is regulated by QAA and widely recognised as a progression route by universities across the UK.

Target Group

The Access Diploma is open to all learners but is designed to be accessible for individuals who, because of their socio-economic or personal circumstances, may not have been able to consider progression to degree level study. The Access Diploma therefore provides a second chance for individuals who, for whatever reason, were not able to take full advantage of their formal secondary education.

About the qualification

The Diploma Specification for Social Work enables centres to choose from a range of units within social work, psychology and sociology, there is additionally a choice of suitable complementary subjects.

The progression routes¹ from this Diploma could include, but are not limited to, degrees in social work, psychology, criminology, sociology, criminal justice, teaching, public services, social policy, counselling, education, childhood and youth studies, health, and social care, etc.

Specification Rules

All LASER Diplomas are made up of 45 graded credits (sections A, B, C below) and 15 ungraded credits (section D). The policy for the LASER Access to HE Diploma Specification & Assessment Framework is available at [Validated Diploma Specifications](#) or by contacting the Access Office.

Diploma Assessment Framework

All LASER validated Access to HE programmes must include a **Diploma Assessment Plan** as a part of their validation/revalidation process and the plans will be required to be updated and available for review as part of the yearly External Quality Assurance cycle. In identifying assessment models, practitioners should also give due consideration to the requirements of the LASER [Guidance on the Use of AI](#) to ensure the veracity of assessments as measures of student achievement.

The policy for the LASER Access to HE Diploma Specification & Assessment Framework is available via [Validated Diploma Specifications](#) or by contacting the Access Office.

Required Assessment Models:

Assessment Model ²	Suggested Weighted Frequency of Use	Comments
Examination	High / Moderate / Low	<p><i>Required by LASER Examination Policy and identified as a commonly used assessment model within HE.</i></p> <p>The LASER Examination Policy requires all LASER validated Diploma Titles to contain at least three opportunities for students to experience appropriate forms of ‘summative’ examination which contribute to the final assessment and grade of the unit. Unless there is a compelling reason, no diploma should contain more than six examinations. The full policy can be viewed here: Access Policies.</p>
Essay (Include as necessary)	High / Moderate / Low	<i>Together with Examinations this constitutes one of the most predominant assessment methodologies for HE.</i>
Presentation	High / Moderate / Low	<i>Very high frequency of use in HE but not always as a summative assessment tool. Students should have moderate but not substantive experience of this form of assessment.</i>
Case Study	High / Moderate / Low	<i>May be appropriate to units where there is a requirement for application of knowledge... E.g. Law or Psychology.</i>

² Definitions of the meanings of given **Assessment Models** are contained within Annex One of the LASER Access to HE Diploma Specification & Assessment Framework.

Recommended Assessment Models:

Recommended Assessment Model	Possible Weighting	Comments
Project	Strongly Recommended / Recommended / Suggested	<i>May be used as a means of assessing independent learning in a given subject area.</i>
Extended Essay	Strongly Recommended / Recommended / Suggested	<i>Although not the norm this assessment tool is used with moderate frequency in HE and therefore students should have some experience of it.</i>
Report ³	Strongly Recommended / Recommended / Suggested	<i>A less frequently used model of assessment but required as many progression reports will employ this model and students should have some experience of it.</i>
Workbook	Strongly Recommended / Recommended / Suggested	<i>May be used in relation to any unit.</i>

³ This could be evidenced by the submission of the graded IAS or could be evidenced via a graded alternative unit of assessment.
