

**Unit Title:** Science And The Plant World  
**Unit Level:** Entry 2  
**Unit Credit Value:** 3  
**GLH:** 30  
**LASER Unit Code:** WJB260  
**Ofqual Unit Code:** L/503/3957

This unit has 4 learning outcomes.

LEARNING OUTCOMES		ASSESSMENT CRITERIA	
The learner will:		The learner can:	
1.	Know the conditions needed for growth of plants.	1.1	Identify the conditions needed for growth of plants.
		1.2	Identify conditions needed for germination of plants.
2.	Be able to investigate the growth of plants.	2.1	Follow simple instructions to investigate plant growth.
		2.2	Obtain results from investigations.
3.	Know the science of plant growth.	3.1	Identify the major parts of a plant designed to support growth.
4.	Understand the science of plant reproduction.	4.1	Identify the parts of a flower that are designed for reproduction.
		4.2	Outline the function of reproductive parts of a flower.
