

Unit Title: Measure: Distance And Length
Unit Level: Entry 3
Unit Credit Value: 1
GLH: 10
LASER Unit Code: WJC329
Ofqual Unit Code: D/506/0919

This unit has 2 learning outcomes.

LEARNING OUTCOMES		ASSESSMENT CRITERIA	
The learner will:		The learner can:	
1.	Be able to read and interpret distance in everyday situations.	1.1	Identify the units for measuring distances.
		1.2	Demonstrate how to read and record distances on road signs.
		1.3	Demonstrate how to estimate distance in miles when following and giving directions.
2.	Be able to estimate measure and compare length.	2.1	Demonstrate how to read and record lengths in decimal notation using metric measurements.
		2.2	Recognise that 100cm = 1m.
		2.3	Recognise that 10mm = 1cm = 0.01m, 50cm = 0.5m (using zero as a place holder).
		2.4	Demonstrate how to order lengths in decimal notation (with up to 2 dpl).
		2.5	Identify appropriate units of length to measure in everyday situations.
		2.6	Demonstrate how to estimate lengths to a reasonable degree of accuracy in everyday situations.
		2.7	Identify appropriate instruments to measure items in practical situations.
		2.8	Demonstrate how to measure items using labelled and unlabelled divisions on measuring instruments and record measurements in decimal notation.

Assessment Guidance:
