

Unit Title: Vehicle Fuel And Exhaust Systems
Unit Level: Entry 3
Unit Credit Value: 5
GLH: 45
LASER Unit Code: WJC386
Ofqual Unit Code: F/506/0993

This unit has 2 learning outcomes.

LEARNING OUTCOMES		ASSESSMENT CRITERIA	
The learner will:		The learner can:	
1.	Be able to follow approved and safe procedures when carrying out removal and replacement activities on vehicle fuel and exhaust systems.	1.1	Use Personal Protective Equipment when working on vehicle fuel and exhaust systems.
		1.2	Follow approved workplace procedures.
		1.3	Identify potential health and safety hazards and risks.
		1.4	Identify the relevant information sources.
		1.5	State the importance of keeping records.
2.	Know how to carry out removal and replacement activities on vehicle fuel and exhaust systems.	2.1	Identify the tools and equipment to use.
		2.2	Check tools and equipment are fit for purpose.
		2.3	Use tools and equipment safely.
		2.4	Identify the major components of the vehicle fuel and exhaust systems.
		2.5	State the basic operation and purpose of the following; air filter, exhaust, fuel injector, fuel filter.
		2.6	Examine vehicle fuel and exhaust systems.
		2.7	Outline how to perform basic removal and fitting techniques.
		2.8	Recognise and report cosmetic damage to vehicle components and units outside normal service items.
		2.9	Identify replacement component codes.
Assessment Guidance:			
Current legal and regulatory frameworks and guidance as well as accepted good practice must be applied to the delivery of this unit.
