

**Unit Title:** Principles Of Maintaining Grass Surfaces  
**Unit Level:** Level 1  
**Unit Credit Value:** 2  
**GLH:** 18  
**LASER Unit Code:** WJC441  
**Ofqual Unit Code:** H/506/1005

This unit has 1 learning outcome.

| LEARNING OUTCOMES |                                      | ASSESSMENT CRITERIA |   |
|-------------------|--------------------------------------|---------------------|---|
| The learner will: |                                      | The learner can:    |   |
| 1.                | Know how to maintain grass surfaces. | 1.1                 | State the conditions that are appropriate for the maintenance of grass surfaces.            |
|                   |                                      | 1.2                 | List the correct tools and equipment for the work.  |
|                   |                                      | 1.3                 | State how to prepare and use the required tools and equipment safely and efficiently.       |
|                   |                                      | 1.4                 | Identify when the height of grass and finish of edges meets requirements.                   |
|                   |                                      | 1.5                 | State how to dispose of grass cuttings.   |
|                   |                                      | 1.6                 | State the importance of cleaning and storing tools and equipment promptly and safely.       |
|                   |                                      | 1.7                 | Identify hazards in relation to the maintenance of grass surfaces.                          |
|                   |                                      | 1.8                 | Outline legislation and codes of practice in relation to the maintenance of grass surfaces. |
