

Unit Title: Developing Skills In Wiring Electrical Circuits And Components
Unit Level: Level 1
Unit Credit Value: 3
GLH: 30
LASER Unit Code: WJC544
Ofqual Unit Code: K/506/0986

This unit has 2 learning outcomes.

LEARNING OUTCOMES		ASSESSMENT CRITERIA	
The learner will:		The learner can:	
1.	Be able to prepare for and carry out an electrical wiring activity.	1.1	Complete safety checks ready to carry out an electrical wiring activity.
		1.2	Prepare components, cables, tools and equipment ready for an electrical wiring activity.
		1.3	Check components and cables before they are used in an electrical wiring activity.
2.	Be able to wire and terminate electrical components correctly and safely.	2.1	List the safety aspects for an electrical wiring activity.
		2.2	Wire up electrical components correctly and safely.

Assessment Guidance:
