

Unit Title: Measure: Time And Temperature
Unit Level: Level 1
Unit Credit Value: 2
GLH: 18
LASER Unit Code: WJC699
Ofqual Unit Code: R/506/0920

This unit has 7 learning outcomes.

LEARNING OUTCOMES		ASSESSMENT CRITERIA	
The learner will:		The learner can:	
1.	Be able to use time written in different formats.	1.1	Demonstrate how to read time from a 24-hour clock.
		1.2	Demonstrate how to record time in 24-hour notation.
		1.3	Demonstrate how to match 12-hour and 24-hour times.
		1.4	Demonstrate how to convert between 12-hour and 24-hour times.
		1.5	Identify appropriate devices to measure different lengths of time.
		1.6	Demonstrate how to extract simple information from timetables.
2.	Be able to identify and use dates written in different formats.	2.1	Identify common date formats.
		2.2	Demonstrate how to use common date format.
		2.3	Demonstrate how to use a calendar to calculate the length of time between given dates.
3.	Be able to understand the relationship between units of time.	3.1	Identify uses of different units of time for activities and events.
		3.2	Demonstrate how to estimate in appropriate units the time different activities and events will take.
4.	Be able to calculate using time.	4.1	Identify the relationships between units of time.
		4.2	Demonstrate how to convert between units of time.
		4.3	Demonstrate how to add hours and minutes.
		4.4	Demonstrate how to subtract hours and minutes.
		4.5	Demonstrate how to calculate durations of time.
		4.6	Demonstrate how to compare durations of time.
5.	Be able to read temperatures.	5.1	Demonstrate how to read thermometers in degree Celsius.
		5.2	Demonstrate how to read thermometer in degrees Fahrenheit.
		5.3	Demonstrate how to identify freezing point as 0°C and 32°F.

Unit Title: Measure: Time And Temperature
Unit Level: Level 1
Unit Credit Value: 2
GLH: 18
LASER Unit Code: WJC699
Ofqual Unit Code: R/506/0920

6.	Be able to compare temperatures.	6.1	Compare temperatures in degrees Celsius in degrees Celsius and degrees Fahrenheit.
7.	Be able to measure temperature.	7.1	Estimate and measure temperature in everyday situations.
