

Unit Title: Vehicle Wheels And Tyre Systems
Unit Level: Entry 3
Unit Credit Value: 4
GLH: 40
LASER Unit Code: WJC706
Ofqual Unit Code: R/506/0996

This unit has 2 learning outcomes.

LEARNING OUTCOMES		ASSESSMENT CRITERIA	
The learner will:		The learner can:	
1.	Be able to follow approved and safe procedures when carrying out removal replacement and checking activities on vehicle wheels and tyres.	1.1	Correctly use required PPE.
		1.2	Follow approved workplace procedures.
		1.3	Identify potential health and safety hazards and risks.
		1.4	Identify the relevant information sources.
		1.5	State the importance of keeping records.
2.	Know how to carry out removal replacement and checking activities on vehicle wheels and tyres.	2.1	Identify the correct tools and equipment and check they are fit for purpose.
		2.2	Correctly use tools and equipment.
		2.3	Identify the major components of the wheels and tyre system.
		2.4	State the basic operation and purpose of the following; tyres, valves, wheels balance, weights.
		2.5	Examine wheel and tyres for: damage, balance, leaks, wear limits & characteristics, tyre types and side wall marking.
