

**Unit Title:** Measure: Capacity And Temperature  
**Unit Level:** Entry 3  
**Unit Credit Value:** 1  
**GLH:** 10  
**LASER Unit Code:** WJC804  
**Ofqual Unit Code:** Y/506/0918

This unit has 2 learning outcomes.

LEARNING OUTCOMES		ASSESSMENT CRITERIA	
The learner will:		The learner can:	
1.	Be able to estimate and measure capacity.	1.1	Demonstrate how to read and record capacity in decimal notation using metric measurements.
		1.2	Identify that 1000ml = 1 litre.
		1.3	Identify appropriate units of capacity for everyday items.
		1.4	Demonstrate how to estimate the capacity of containers.
		1.5	Demonstrate how to measure the capacity of containers by filling them using containers of known capacity.
		1.6	Demonstrate how to measure the capacity of containers by reading labelled divisions on a measuring jug.
2.	Be able to read and measure temperature.	2.1	Demonstrate how to read a thermometer.
		2.2	Identify that temperature can be measured in different scales.
