

Unit Title: Floristry Techniques
Unit Level: Level 2
Unit Credit Value: 3
GLH: 24
LASER Unit Code: WJD519
Ofqual Unit Code: F/504/9315

This unit has 6 learning outcomes.

LEARNING OUTCOMES		ASSESSMENT CRITERIA	
The learner will:		The learner can:	
1.	Know about the relevant tools and equipment.	1.1	Explain the use of tools in floristry.
		1.2	Explain the use of equipment in floristry.
2.	Know about relevant plant material.	2.1	Describe seasonal plant material used in floristry.
		2.2	Explain the type of arrangement for which each plant material would be suitable.
		2.3	Describe the risks posed by hazardous plant materials.
		2.4	State the preventative/remedial action that should be taken for each type described.
3.	Understand conditioning techniques.	3.1	Describe methods of conditioning plants.
		3.2	Explain the benefits of the methods.
4.	Understand preservation techniques.	4.1	State when plant material should be picked for preservation.
		4.2	State why plant material should be picked for preservation.
		4.3	Describe methods of preserving plants.
5.	Understand basic design principles.	5.1	Explain how displays reflect basic design principles.
6.	Understand basic construction techniques.	6.1	Explain construction/support techniques.
		6.2	Identify the contexts in which they would be employed.
