

Unit Title: Using Numeracy Skills In Health And Social Care
Unit Level: Level 2
Unit Credit Value: 3
GLH: 24
LASER Unit Code: WJF254
Ofqual Unit Code: R/507/0668

This unit has 4 learning outcomes.

LEARNING OUTCOMES		ASSESSMENT CRITERIA	
The learner will:		The learner can:	
1.	Be able to recognise when to use numeracy skills in Health and Social Care.	1.1	Outline how numeracy skills can be used to find solutions in different Health and Social Care situations.
2.	Be able to select appropriate mathematical approach to solving Health and Social Care problems.	2.1	Identify possible mathematical methods that could be used to solve specific Health and Social Care problems.
		2.2	Select the most appropriate mathematical approach for each situation.
3.	Be able to apply appropriate numeracy skills in a Health and Social Care context.	3.1	Collate supporting information needed in order to apply numeracy skills in work Health and Social Care situations.
		3.2	Apply different mathematical approaches, using the appropriate numeracy skills, to Health and Social Care problems or situations.
		3.3	Use appropriate checking procedures and evaluate their effectiveness at each stage.
4.	Be able to interpret and communicate results in situations where they have used numeracy skills in a Health and Social Care context.	4.1	Analyse findings from the mathematical approaches used in Health and Social Care situations.
		4.2	Identify solutions to Health and Social Care problems or tasks based on their findings.
		4.3	Use mathematical justifications to explain their conclusions or recommendations to others.
