

**Unit Title:** Audio Software  
**Unit Level:** Level 3  
**Unit Credit Value:** 4  
**GLH:** 30  
**LASER Unit Code:** WJH116  
**Ofqual Unit Code:** Y/650/1734

This unit has 3 learning outcomes.

LEARNING OUTCOMES		ASSESSMENT CRITERIA	
The learner will:		The learner can:	
1.	Be able to capture sequences.	1.1	Determine the content needed for sequences.
		1.2	Explain compatibility issues between combinations of input device and audio software.
		1.3	Select a combination of input device and audio software to optimise the recording.
		1.4	Optimise a recording using a combination of input device and audio software.
		1.5	Select a combination of hardware and software to use to create new content for sequences.
		1.6	Create new sequences using a combination of hardware and software
		1.7	Analyse and explain the impact of file size and format on information coding and compression.
		1.8	Store sequences using different file formats and compression, in line with local guidelines and conventions.
		1.9	Retrieve sequences.
2.	Be able to edit sequences.	2.1	Select audio software tools and techniques to mark-up and edit sequences.
		2.2	Edit sequences to achieve required effects.
		2.3	Produce guidance on how copyright constraints affect use of own and others' information.
		2.4	Organise, combine and link information for sequences in line with any copyright constraints across different software.
3.	Be able to present audio sequences.	3.1	Explain the features and constraints of playback software and devices for a range of different purposes.
		3.2	Select a combination of audio

**Unit Title:** Audio Software

			playback software and devices to suit file format.
		3.3	Play sequences using a combination of audio playback software and devices.
		3.4	Present sequences to maximise quality and meet needs.
		3.5	Evaluate the quality of sequences..
		3.6	Explain how to respond to quality issues and problems.
