Unit Title: Video Software
Unit Level: Level 2
Unit Credit Value: 3
GLH: 20
LASER Unit Code: WJH167
Ofqual Unit Code: H/650/1756

This unit has 3 learning outcomes.

LEARNING OUTCOMES		ASSESSMENT CRITERIA	
The learner will:		**The learner can:**	
1.	Be able to capture video sequences.	1.1	Identify the combination of input device and video software to use to capture sequences.
			Suggest ways of avoiding software and hardware compatibility issues.
		1.2	Select a combination of input device and video software to record sequences.
			Record sequences using chosen method.
		1.3	Describe the impact file size and format have on saving sequences.
		1.4	Identify when to use different types of information coding and compression.
		1.5	Store and retrieve sequences using appropriate file formats and compression, in line with local guidelines and conventions.
2.	Be able to combine and edit video sequences.	2.1	Identify sequences to add, keep and remove.
		2.2	Select video software tools to mark-up and edit sequences.
			Mark-up and edit sequences using chosen tools.
		2.3	Organise and combine information for sequences.
		2.4	Describe how copyright constraints affect use of own and others' information.
3.	Be able to play and present video sequences.	3.1	Describe the features and constraints of playback software and display devices.
		3.2	Select a combination of video playback software and display device to suit the file format.
			Use video software and hardware to suit the file format.
		3.3	Identify settings that could be adjusted to improve the quality of presentations.
		3.4	Adjust playback and display settings to enhance the quality of presentation.
