

**Unit Title:** Woodwork Jointing Skills  
**Unit Level:** Level 2  
**Unit Credit Value:** 3  
**GLH:** 24  
**LASER Unit Code:** WJH170  
**Ofqual Unit Code:** K/650/1758

This unit has 3 learning outcomes.

LEARNING OUTCOMES		ASSESSMENT CRITERIA	
The learner will:		The learner can:	
1.	Know common joints in construction.	1.1	Describe a common joint used in constructing a: <ul style="list-style-type: none"> <li>• carcass</li> <li>• drawer</li> <li>• door</li> <li>• and window.</li> </ul>
		1.2	Outline the reasons for using one common joint for constructing a: <ul style="list-style-type: none"> <li>• carcass</li> <li>• drawer</li> <li>• door</li> <li>• and window</li> </ul>
		1.3	Describe how to use a common joint used in constructing a: <ul style="list-style-type: none"> <li>• carcass</li> <li>• drawer</li> <li>• door</li> <li>• and window</li> </ul>
2.	Be able to make different types of joints.	2.1	Make specified joints from a given range with less than a 2mm margin of error.
3.	Be able to select joints for a given task.	3.1	Select joints for given construction tasks.
		3.2	Give reasons for choice of joint made for each given task.
