

## LEVEL 3 OFQUAL REGULATED QUALIFICATIONS

# First Aid

### PRODUCT SUMMARY

The LASER suite of First Aid qualifications comprises four regulated qualifications which have been developed by industry experts.

First Aid training is an important life skill as well as being a requirement in many workplaces. Employers must ensure that someone is always available to arrange first aid. Workplaces with certain levels of health and safety risks are likely to need a trained first aider. Schools, nurseries and other childcare settings are required by law to have a paediatric first aid qualified member of staff available.

The qualifications are valid for 3 years from achievement. An annual refresher is recommended to keep skills up-to-date.
